Holiday Recipes

Divinity Candy

3c. Sugar
½ c. Karo syrup
½ c. Water
2 egg whites
1 tsp. vanilla
1 c. pecans

Beat egg white until very stiff. After beaten and vanilla.

Cook sugar, syrup, and water until it forms a hard ball in cold water (Med. Flame)

Add syrup mixture to egg white and beat at high speed until it gets stiff and add pecans. Drop on tin foil and let cool.

Chocolate Covered Cherries 4 dozen

6 T Butter, softened
2 1/2 c sifted powdered
sugar
1 ½ tsp milk
¼ tsp vanilla
48 maraschino cherries
with stem
1 (12oz) pkg semisweet
chocolate morsels
1 T shortening

Cream butter; gradually add sugar, beating well. Blend in milk & vanilla, chill mixture for 2 hrs, or until firm.

Drain cherries; dry on absorbent paper towels. Place bowl of sugar mixture in a bowl of ice to keep mixture chilled.

Shape a small amount of sugar mixture around each cherry. Place on wax paper lined cookie sheet.

Chill about 2 hrs or until firm.

Melt chocolate and shortening in top of double boiler.

Dip each cherry by the stem into chocolate.

Place on a waxed paper lined cookie sheet, chill until firm. Store cherries in a cool place.

Client Appreciation Letter to CCS

Regarding Camelot/Waterford Job.

I just wanted to say it was a pleasure working with John Bullard on this project. One thing I noticed in particular was the attention to detail, professionalism and coordination that CCS put into this project.

I see a lot of school installations and this one stood out in my mind as one of the best.

Some of things that I noticed were that the equipment and the equipment rooms were clean, coil piping and duct was well thought out and coordinated.

I enjoyed working with CCS mechanical on this project. The School Board got a great installation and one that I think stands out above most of the others I have seen.

*Chris Mills
Carroll Air Systems, Inc.*

"We don't intend to be the Biggest..just the Best!"

Happy Birthday

Edward T Jordling 11/14

Rickey W May 12/24

Elmer Weston Jr. 12/24

Gerald J Waterman 12/3

Todd A Duncan 12/9

Stewart D Watson 12/14

Michael A Bartic 11/14

Course schedules will be handed out to all CCS employees at the annual company meeting in January

Holiday Closings

Christmas Day and New Year's Day

*Wishing you a Merry Christmas &
Happy New Year!*

Christmas Tree Safety Tips

SafeTips

A fire on any day seems bad, but a fire on Christmas seems to be the worst. Some 300 Christmas trees caught fire in one recent year, with electrical problems the most common culprit. Here's how to keep your tree green and your presents safe.

When you buy your tree, have the vendor make a fresh cut an inch from the bottom; this will help the tree drink.

If you buy your tree early and keep it outside, store it away from wind and sun, and keep the bottom in a bucket of water.

Make sure your lights are safe. If you need outdoor lights, make sure the ones you buy are meant for outdoor use. Make sure your lights carry certification from a testing laboratory. Don't use electric lights on a metal tree.

Discard any strings of lights that are frayed or broken. Christmas lights are cheap.

Unplug your Christmas tree before you leave or go to bed. Don't buy a tree that is dry and dropping needles. To check for freshness, loosely grip the end of a branch and pull your hand over it. Only a few needles should fall off.

Make sure your tree stand holds plenty of water, and don't let it run out.

If your tree seems wobbly, center it in the stand more securely and redo the bolts or screws. If your tree stand is cheap, buy a larger, stronger one.

If you buy an artificial tree, make sure it is fire-retardant. Keep your tree at least three feet from furnaces, radiators and fireplaces.

try to position it near an outlet so that cords are not running long distances. Do not place the tree where it may block exits. When Christmas is over or when the tree starts to drop needles, dispose of it. Don't leave it in your house or put it in your garage.

Keep a close eye on small children when they are around the tree; many small decorations and ornaments are sharp, breakable and can be swallowed.

CCS Family Holiday Party

You and your family are cordially invited to attend the CCS Family Holiday Party.

Location:

Easy Street Family Fun Center
2727 Southwest 27th Avenue.
Ocala, FL 34474

Date: 12/17/2006

Time: 5:00 p.m. - 9:00 p.m.

Don't forget to bring a new unwrapped toy!

Safe Working Practices

TO ALL CCS MECHANICAL EMPLOYEES

Safe working practices are no accident. I ask each of you to think about safety, talk about safe work practices, and help each other make good decisions about working safely. Thinking about the complexity of understanding our work is no more important than thinking about overcoming the physical challenges of doing our work. If you avoid work injuries because you think more about safety, you are adding to the investment in our future accomplishments we all make every day.

My vision for CCS Mechanical Inc. includes all of you actively participating in our ongoing improvements. Your work achievements are what permit's CCS Mechanical Inc. to be such an effective facilities service organization. Excellence in service, learning and safety—these are the prime characteristics of the ever expanding and development of a safe work culture.

Our commitment to a safe work environment has accomplished a reduction in the Experience Modification Rate from 1.37 to 1.29; this is an 8% reduction in our E.M.R. What this means to CCS is a \$20,000.00 savings in our workers comp premium for 2007, also the average cost of work related accidents dropped from \$7,000.00 per accident to \$900.00 per accident, for this I commend all of the field and shop personnel, furthermore, Louie Jr. would like to pass this savings on to all personnel that have not been in violation of safety policy in the form of gift cards.

*Once again, thank you!
Doug Wilson, Safety Director*
