

CCS Mechanical Prequalification Packet for General Contractors

Commercial & Industrial Mechanical Contractor — Ocala, Florida

Company Overview

- CCS Mechanical is a commercial and industrial mechanical contractor headquartered in Ocala, Florida, serving general contractors and multi-site facility owners across Central Florida.
- In-house capabilities include HVAC system design and build, sheet metal fabrication and ductwork from our own Ocala shop, installation, retrofit, commissioning, and an in-house service department with 24/7 emergency response.

Licensing

- CCS Mechanical holds Florida mechanical contractor licensing and carries all county and municipal registrations required for work in its service area.
- License numbers and copies of current licenses are provided with each bid, or on request during prequalification.

Insurance & Bonding

- Certificates of insurance, additional-insured endorsements and bonding capacity letters are available on request and accompany every submitted bid.
- Contact the estimating team through the bid request form at ccsmechanical.com/request-service/ to receive current certificates.

Project Experience

- New construction HVAC for commercial, industrial and institutional facilities
- HVAC replacement and retrofit in occupied buildings
- Design-build mechanical packages delivered from concept to commissioning
- Plan-and-spec estimating on GC-bid packages
- Preventive maintenance and in-house service after turnover

Service Capacity

- In-house service department staffed for commercial and industrial equipment, with 24/7 emergency response for existing and contracted customers.
- Daily service radius covers Ocala, Gainesville and Central Florida.

Key Contacts

- Estimating and bid invitations: submit through ccsmechanical.com/request-service/ or call (352) 237-6272.
- Office: 737 SW 57th Ave, Ocala, FL 34474.

Where to Find Us

- GCs may invite CCS to bid through our bid request form at ccsmechanical.com/request-service/ or by calling estimating at (352) 237-6272.

This packet is provided for prequalification purposes. Current license, insurance and bonding documents are issued with each bid.
